

Safety Rules for Voluntary One way System!

Traffic congestion at peak times is a problem at Sutton Green Primary School. To help Parents save time and make the area around the school safer a Voluntary One Way system will be implemented.

The aim of the One Way route is to make dropping pupils off to school a quicker, easier and safer experience.

To ensure that the One-way system runs smoothly you must...

- ⚠ Follow the correct direction of the traffic at peak times.
8.30am to 9.15am and 2.45pm to 3.30 pm.
- ⚠ (Turn over to see the direction traffic will be going).

Do Not...

- ⊗ Create an obstruction i.e. parking on ZIGZAG lines, road corners and on the pavement this will cause problems for other vehicles and pedestrians! It will endanger children crossing the road as their visibility will be impaired.

It will be in operation from Monday 19th November 2007.

Final note ...

Walking is good for you!! Leave the car at home!!
